DETAILED ACTION

Drawings

Figures 1, 2, 3A-3B, and 4 should be designated by a legend such as -- Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures.

Allowable Subject Matter

Claims 2 and 5-7 are allowed.

The following is an examiner's statement of reasons for allowance:

As for claims 7, the prior art does not teach or fairly suggest the use of a conversion device having a sensor array that transfers the signal to a ring shaped transfer unit continuously in an light projection ON state and alternately continuously transfers signal in a light projection OFF state at different timings wherein skimming that is inhibited when a light projection OFF signal goes ahead of a light projection ON signal in integration of the signal in the ring shaped transfer unit.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
